## **Legislative Report No. 6**

### ***2016 Kentucky General Assembly***

Today marks the twenty-second legislative day of the 2016 session of the Kentucky General Assembly.

Legislation is moving through the committee process and passing the respective chambers. Through yesterday there have been 25 bills and resolutions passed by the Senate and 24 bills and resolutions passed by the House. The first bill of the 2016 session became law this week when Governor Bevin signed [SB 4](#).

The House Appropriations and Revenue Committee have begun their consideration of the state budget. The committee met on Tuesday and heard testimony from the state budget director and his staff regarding Governor Bevin's budget proposal. All of the budget review subcommittees have met to review their portions of the budget.

Please refer to [Legislative Report No. 5](#) dated 1/29/16 for a listing of KFB's funding priorities. It is our understanding the University of Kentucky College of Agriculture, Food and Environment has made application to the Kentucky Agricultural Development Board for the initial funding for the Grain Center of Excellence project. As reported last week, Governor Bevin's budget included \$21 million in FY 16 for the Agriculture Development fund. This was a result of carry forward funds from last year's session of the General Assembly.

This week we had a very productive meeting with Secretary Snavely of the Energy and Environment Cabinet to discuss our 2016 priority issue related to water resources.

Also this week Commissioner Quarles shared his vision for the Kentucky Department of Agriculture on the KFB minute. To view [click here](#).

**Below is an update on a couple of bills of interest:**

**[HB 231: T. McKee, R. Rand, M. Denham, M. Meredith, T. Mills, S. Overly, W. Stone - AN ACT relating to the taxation of drugs used in the treatment of cattle, sheep, swine, poultry, llamas, alpacas, buffalo, aquatic organisms, cervids, or ratite birds.](#)**

This bill will exempt drugs and over-the-counter drugs for beef cattle, dairy cattle, sheep, swine, poultry, llamas, alpacas, buffalo, aquatic organisms, cervids, or ratite birds sold or purchased between August 1, 2016, and July 31, 2022 from the sales and use tax; EFFECTIVE AUGUST 1, 2016. This bill passed the House Agriculture and Small Business Committee on Wednesday, however on Thursday this bill was recommitted to the House Appropriations and Revenue Committee because it contains a fiscal note ([FN](#)).

**KFB Policy:**

*"We recommend that all farm production items including veterinary medicine and vaccines, electricity, sawdust and wood shavings, all livestock and poultry bedding, LP gas, and natural gas be exempt from sales and use tax.*

**HCR 29: L. Combs, S. Riggs**

This resolution would establish a Timber Theft and Trespass Reduction Task Force and provide that the purpose of the task force is to study issues regarding timber theft and trespass and to develop consensus recommendations to address those issues; name the membership of the task force; require the task force to meet three times before submitting its final report; require its final report to be submitted to the Legislative Research Commission by November 30, 2016. This bill passed the House Natural Resource and Environment Committee and was placed on the House Consent Calendar.
