

When seconds count...

TAKE CONTROL

In an emergency, every second counts.

When you are faced with a medical emergency, your best hope for a good outcome rests in the ability to act quickly.

When someone is having a heart attack, fast action is crucial. With each minute that passes, more heart tissue is deprived of oxygen and sustains greater damage. Blood flow must be restored within the first hour to improve chances of survival.

In the event of a stroke, prompt treatment could mean the difference between life and death. The longer a stroke goes untreated, the greater the damage and potential disability.

After a serious car accident, possible conditions include head trauma, spinal injury, internal bleeding or fractures. The sooner the patient gets to the nearest emergency trauma center, the better the prognosis.

Life is full of dangerous possibilities, but you can affect the outcome of a medical emergency.

When the worst happens... we'll be there for you.

Air Evac Lifeteam medical specialists are standing by 24 hours a day, 365 days a year to respond to your medical emergency. A call to 911 is the first step to address your emergency. By alerting the 911 operator and the ground emergency response team that you are an Air Evac member, and should your medical condition warrant, a highly skilled crew will fly directly to your location. You or your loved one will be stabilized and transported to a hospital when seconds count most.

Some cases may call for critical care transport from an outlying medical facility to a larger hospital in a metropolitan area. We work with your physician and healthcare provider to make sure that you reach the appropriate medical facility as quickly as possible.

You have the right to receive the emergency medical care you need.

When a medical emergency occurs, take charge of the situation and get the emergency services you need. Knowing you have an Air Evac Lifeteam membership will give you the peace of mind and sense of control you need in the event of a crisis.

Our commitment to you

Air Evac Lifeteam has been serving rural communities with air ambulance care since 1985. We provide fast, professional, safe and courteous emergency medical service. Our professionally trained crews of nurses, medics and pilots operate medically equipped helicopters that rapidly transport patients to the nearest appropriate medical facility.

Save time and money with an Air Evac membership

Membership offers significant benefits. First, your Air Evac membership will not only save time in a critical emergency, it will also save you money.

As a member, Air Evac will work on your behalf with your benefits provider to secure payment for your flight. Whatever your benefits provider pays will be considered payment-in-full for your flight no matter how many times a year you use the service for a life- or limb-threatening emergency.

Furthermore, your membership is valid in all Air Evac Lifeteam service areas so you're covered while traveling. Over 50 mutually supporting Air Evac bases are located within the central United States.

We hope you and your loved ones never need our service. But when you consider all the benefits of membership, can you really afford *not* to enroll?

Help build a stronger community

When you become an Air Evac Lifeteam member, you will also be supporting the healthcare needs of your friends and neighbors. Your membership fees make it possible for Air Evac to provide this life-saving service in your community. Even if you never need it, someone near and dear to you might. And isn't it good to know Air Evac Lifeteam is out there for everyone?

Annual Membership Fees:

- \$50 for the first household member
- \$55 per couple
- \$60 per household

Terms and Conditions

- Membership is valid 15 days after registration is received with payment.
- Members are entitled to transport by an Air Evac Lifeteam (AEL) helicopter to the closest appropriate medical facility, for injuries that are deemed by an attending medical professional to be life- or limb-threatening, or that could lead to permanent disability.
- A patient's medical condition will dictate whether or not air transportation is in the best interest of the patient's health and well-being. In certain conditions of compromised health, AEL reserves the right to determine whether or not a patient is flown.
- AEL reserves the right to directly bill the appropriate benefits provider for services rendered. Members agree to remit to AEL any payment received from benefit providers for air medical services provided by AEL.
- AEL will not be responsible for payment for services provided by another air ambulance service.
- AEL membership is not an insurance policy, is non-refundable, and may not be transferred to other persons or households.
- Federal Aviation Administration restrictions prohibit AEL from transporting patients weighing over 400 pounds, or flying in inclement weather conditions. The primary determinant of whether to accept a flight regardless of the factor, be it patient size, weather conditions, or some other factor, is always the safety of the patient and our medical flight crews.
- AEL services may not be available at the time of request for services due to factors beyond AEL's control, such as use of the appropriate aircraft by another patient or other circumstances governed by operational requirements such as regulations and maintenance.
