

AUTO QUOTE CHECKLIST

At KFB, you won't be doing business with a robot. All of our online quotes are processed by real people right here in Kentucky.

Once you submit your request for an auto quote, you will be contacted by a Kentucky Farm Bureau Insurance agent, who will then ask you for some information to complete the process. Aside from the expected questions, like name, address, and birth date, our agents will request some more detailed information from you.

To make this process easier for you, you may want to have the following at your fingertips:

- Your car's make, model, body style, VIN, and mileage**
 - Name of registered owner**
- Prior or current insurance carrier and expiration date of that policy**
 - Date of purchase**
 - Ticket and accident history**
 - License suspension information**
